

MathQuest

a summer program of Queen's University
Department of Mathematics & Statistics

Math Quest is a mathematics camp for high school girls interested in math and science who have a curiosity for exploring new ideas. With a focus on problem solving, our hands-on activities are led by female mathematicians, statisticians and physicists.

In 2024, Math Quest will run from Monday, August 12th through Friday, August 16th. We will offer both an overnight, residential camp as well as a commuter, day-camp option. Registration opens on March 18th 2024.
