

Muskoka Climate Youth Advisory Council 2026

HAVE YOUR VOICE AND IDEAS HEARD!

The youth council is intended to create a hopeful space for youth ages 14-18 from Muskoka Area High Schools to see that they can make a positive impact in their community and take action on such a big and existential threat, such as climate change.

Program Highlights:

- Learn about climate science, solutions, adaption and engagement
- Execute a youth led climate change program/action project for Muskoka youth
- Build skills and have your voices heard at a municipal level and learn about various municipal/green/conservation careers
- Earn your 40 volunteer hours for graduation
- Letter of support/reference for future job or university/college application
