

# Not Feeling Ready for Grade 9 Math...

UP Math can help:

This course is an innovative program that allows students to develop tools that are necessary for success in Grade 9 Mathematics. The course is offered to students who may have numeracy gaps but show mathematical potential. UP Math serves to prepare students for their desired secondary school mathematics program. Students must apply for this program and be recommended by their grade 8 teachers. Upon successful completion of this course students then study Mathematics at the applied pathway during Semester 2.

Do you need some extra support in math?

Are you achieving a level 2 but would like to be doing better in math?

Is math harder than most of your other subjects?

Come to room 310 to find out more information
